

SOME OF THE PRODUCTS THAT WE NOW HAVE IN STOCK ARE
SANIKLENZ, BOVADINE 20 AND BOVADINE PREMIX

SANIKLENZ We developed this product which has a sophisticated formula which combines multiple acids and a sanitiser. It is designed for a one-step cleaning process and needs no rinsing and the plant may be left to drain. It is for use on all stainless steel milk contact surfaces. It effectively manages milk stone build-up and kills thermophilic bacteria.

SANIKLENZ is now QAC Free as per Murray Goulburn Guidelines.

SANIKLENZ is available in 20ltr and 200ltr.

BOVADINE 20 Tried and tested Iodine teat dip and spray with added premium glycerine for teat conditioning consistent with the recommendations of Countdown Down under. This is the concentrate form which mixes 3 parts water to 1 part Bovadine 20. BOVADINE 20 is available in 200ltr.

“On the farm – Where it counts!”
